
FITC Events // Information Overview

FUTURE INNOVATION CREATIVITY TECHNOLOGY

Four words that capture the essence of what our company and events are all about. We produce design and technology focused events worldwide which inspire, educate and challenge attendees.

Since 2002, FITC has produced over 100 events in across six countries, while engaging with over 47,000 attendees. We have brought together like-minded professionals and students in Toronto, Amsterdam, Tokyo, San Francisco, Chicago, Seoul, New York, Los Angeles and many more.

FITC TORONTO

April 17-19, 2016 // 1300 attendees // 15th year

Canada's premiere conference attended by local and global innovators in creative technology

A three-day professional celebration of the best the world has to offer in design, web development, media and innovation in creative technologies. It's a conference that both unites and transforms the industry - assembling its major leaders and players from across North America and the world. FITC Toronto transforms the Hilton Toronto into an international mecca for the digitally creative, abuzz with creative directors from multinational ad agencies, studio heads from Canada's most sought-after digital production companies, the world's most surprising digital artists, and freelancers, cultural influencers and tech lovers from all walks.

FITC AMSTERDAM

February 22-23, 2016 // 700 attendees // 9th year

DESIGN. TECHNOLOGY. COOL SHIT.

FITC Amsterdam brings together over 700 Creative Technologists, Designers, Developers and all-around awesome thinkers from various innovative industries across the globe.

They converge every year in Amsterdam to connect, challenge, inspire and to experience the cutting edge in design and technology. The event aims to leave attendees informed, challenged and inspired.

It's two solidly packed days of presentations, featuring hand-picked speakers from all over the world. FITC Amsterdam provides unparalleled networking opportunities and legendary parties. We bring the community together and connect like minded individuals who share a passion for this industry of today, and tomorrow.

FITC TOKYO

February 13-14, 2016 // 500 attendees // 7th year

A DESIGN & TECHNOLOGY FESTIVAL

Discover NEW ideas and concepts, explore and push the limits of technology in design and art at FITC Tokyo 2016. Learn how designers and technologists are reinventing what their tools are designed for, finding alternate ways to get what they want, and pushing the boundaries of what is possible to avoid mediocrity.

Now in its seventh year, FITC Tokyo 2016 consists of presentations from some of the most interesting and engaging digital creators from all around the world.

This festival is for designers, developers, digital artists or anyone who creates things in the digital space.
